

# EVOLUTION MATTERS!!

**3<sup>rd</sup> GENERATION  
ACRYLICS**

# 3<sup>RD</sup> GENERATION ACRYLICS ?

## WHAT DOES THIS MEAN???

¿QUÉ SIGNIFICA ESTO?

We have evolved and revolutionized the rules that governed acrylic paints, allowing to present the third generation acrylics at the service of the world of scale modeling and fine arts. These paints feature high opacity and pigmentation, and they are specially formulated to be applied by brush and airbrush to scale models and miniatures made of resin, plastic or metal.

We needed to improve the acrylic paints available on the market thus far. Acrylic colors have been widely used by modelers. They have great advantages such as the absence of toxicity, but these paints have not yet been able to offer comprehensive functionality due to grip deficiencies, clogging in the tip of the airbrush or coverage problems. We took on the challenge of maintaining their advantages, solving their issues and improving their characteristics. Now you have the solution. After a long time developing and perfecting new formulas in the laboratory we wanted to show you the results. Painting with acrylics will no longer be the same ...

Hemos evolucionado y revolucionado las normas que regían las pinturas acrílicas y os presentamos el acrílico de tercera generación al servicio del mundo del modelismo y las bellas artes. Estas pinturas poseen una alta opacidad y pigmentación y están especialmente formulados para ser aplicados a pincel y aerógrafo en maquetas y miniaturas de resina, plástico o metal.

Necesitábamos mejorar los acrílicos del mercado. Los colores acrílicos han sido ampliamente utilizados por los modelistas. Presentan grandes ventajas como la ausencia de toxicidad, pero son pinturas que no han podido ofrecer hasta ahora una funcionalidad integral al presentar deficiencias en cuenta a adherencia, atasos en la boquilla del aerógrafo o problemas de cobertura. Asumimos el reto de mantener las ventajas, resolver sus inconvenientes y mejorar sus características. Ahora ya tienes la solución, después de mucho tiempo desarrollando y perfeccionando nuevas fórmulas en el laboratorio queríamos mostrarte los resultados. Pintar con acrílicos ya no va a ser lo mismo...

## HOW ACRYLICS CAN BE IMPROVED?

¿CÓMO SE PUEDEN MEJORAR LOS ACRÍLICOS?

**NEW FORMULA**  
NUEVA FÓRMULA

New formula featuring high performance resins and high quality components. The paints are made in accordance with European regulations, thus ensuring that no harmful substances are used that could pose a risk to the health of the user and the environment. Nueva fórmula con resinas de altas prestaciones y componentes de alta calidad. Las pinturas se elaboran conforme a la normativa Europea, garantizando así que no se empleen sustancias nocivas que podrían implicar un riesgo para la salud del usuario y el medioambiente.

**READY FOR BRUSH APPLICATION**  
LISTOS PARA APLICARSE A PINCEL

The paint is prepared to be applied directly from the bottle by brush, without getting tired of shaking as another of its advantages is the incorporation of special anti-decanters that prevent the separation of the paint components within the bottle. La pintura está preparada para que puedas pintar directamente del envase a pincel, sin tener que cansarte agitando ya que otra de sus ventajas es la incorporación de anti-decantantes especiales que evitan la separación de los componentes de la pintura en el bote.

**GRIP ADHERENCIA**

Once dry, the colors are permanent and waterproof. They are resistant to oils, enamels, washes, solvents or any potentially aggressive technique. They are easily applied without hiding the finest details of the figures or scale models. Our new formula offers adhesion and resistance up to twice as much as other paints in the market. Una vez secos, los colores son permanentes e impermeables. Son resistentes a aceites, esmaltes, lavados, disolvente o cualquier técnica potencialmente agresiva. Se extienden fácilmente sin ocultar los detalles más finos de las figuras o maquetas. Nuestra nueva fórmula ofrece una adherencia y resistencia hasta dos veces superior a otras pinturas del mercado.

**NO CLOGGING SIN ATASCOS**

Are you tired of experiencing clogging in the airbrush with acrylic paints, having cuts in the stroke or getting sandy paint? One of the advantages of the third generation formula is that we have solved these problems and improved the performance. ¿Estás cansado de tener ataques en el aerógrafo con las pinturas acrílicas, de tener cortes en el trazo o pintura arenosa? Una de las ventajas de la fórmula de tercera generación es que hemos solventado estos problemas y mejorado las prestaciones.

**HIGH COVERAGE ALTA COBERTURA**

High opacity and water-based pigmentation that overcome any other product in the market. Current paints contain cellulose and resins that cause them, even when diluted, not cover or clog in the airbrush. We have created a new formula for brush and airbrush painting avoiding this problem, getting a short drying time, a matt finish and an intense tone. Alta opacidad y pigmentación con base agua que supera cualquier otro producto en el mercado. Las pinturas actuales contienen celulosa y resinas que hacen que, incluso siendo diluidas, no cubran o se atasquen en el aerógrafo. Hemos creado una nueva fórmula para pintar a pincel y aerógrafo evitando este problema, consiguiendo un rápido secado, un acabado mate y un tono intenso.

**INNOVATIVE DESIGN DISEÑO INNOVADOR**

It comes in a 17ml bottle with dropper and its weight is 35gr. The patented design of the cap allows to deposit paint and see the exact tone in vertical position, allowing a fast and exact identification. Se presenta en un frasco de 17ml. con cuentagotas y su peso es de 35gr. El diseño patentado del tapón permite depositar pintura y ver el tono exacto en posición vertical permitiendo una rápida y exacta identificación.

**WIDEST RANGE LA GAMA MÁS AMPLIA**

236 state-of-the-art colors, the most extensive range in the market for acrylic colors in which you will find a solution whatever your specialty is. Made with a technologically superior formula for painting with a brush or an airbrush. No toxic elements, very high pigmentation, ideal for scale models, miniatures and modeling in general. 236 colores de última generación, la gama más extensa del mercado para unos colores acrílicos en los que encontrarás una solución sea cual sea tu especialidad. Elaborados con una fórmula tecnológicamente superior para pintar con pincel o aerógrafo. Sin elementos tóxicos, de muy alta pigmentación, ideal para maquetas, miniaturas y modelismo en general.

# WHAT ELSE CAN YOU EXPECT ?

**¿QUÉ MÁS PUEDES ESPERAR?**

The first thing you are going to see is a bottle with the AK logo identifying the product and a characteristic white cap with a recess on its top that allows to deposit paint and achieve a fast and precise identification of the color.

Our team of modelers assumed the role of final consumers, they tested the product they identified the characteristics that would be most required by the users and that they would expect from the paint themselves.

The quick drying and the comfort of having an acrylic product with a perfect matte finish could be improved in terms of usability if the brush strokes were not perceived, provided a perfect covering and if they could also be applied with an airbrush with the same ease as the enamel based paints.

Lo primero que vas a ver es un envase con el logo de AK en el fondo identificando el producto y un tapón blanco característico con un depósito en su parte superior que permite depositar pintura y lograr una rápida y precisa identificación del color.

Nuestro equipo de modelistas asumieron el rol de consumidor final, probaron el producto hasta identificar las características que necesitan los usuarios y que a ellos mismos les gustaría encontrar en una pintura.

El secado rápido y la comodidad de tener un producto acrílico con un acabado mate perfecto se podía mejorar en cuanto a usabilidad si los trazos del pincel no se percibiesen, proporcionasen una perfecta cubrición y si además se pudiesen aplicar con aerógrafo con la misma facilidad que las pinturas de base esmalte.

Use the top hole featuring an eyedropper to deposit the paint.

Usar el orificio superior del cuentagotas para depositar la pintura.

Apply some drops in the top hole of the cap.

Aplicar unas gotas en el orificio del tapón.

Patented cap, easy opening, neutral color to make visible any kind of paint.

Tapón patentado, fácil apertura, color neutro para hacer visible cualquier tipo de pintura.

Remove the cap.  
Quitar el tapón.

## TYPES OF ACRYLIC PAINTS

TIPOS DE PINTURAS ACRÍLICAS

The range of paints is quickly identified by labels. We can identify six different labels with a color circle that contains the brand logo, the color name and the code at the top of the label.

La gama de pinturas se identifica rápidamente por las etiquetas. Podemos identificar seis etiquetas diferentes con un círculo de color que contiene el logotipo de la marca, el nombre del color y el código en la parte superior de la etiqueta.

### CYAN LABEL ETIQUETA CIAN

There are 6 pastel colors within the range, which are identified by a pastel blue circle. These tones can be used, as the others, in any type of modeling, figures, sceneries, buildings, vehicles...

Existen 6 colores pastel dentro de la gama, los cuales están identificados con un círculo azul pastel. Estos tonos pueden ser utilizados, como el resto, en cualquier rama de modelismo, figuras, escenarios, edificios, vehículos...

### ORANGE LABEL ETIQUETA NARANJA

The basic label. The orange dot is the element that marks a range of colors designed for any kind of modeler. The clear and easily identifiable label includes the name of the color and its reference code at the top.

La etiqueta general. El punto naranja es el elemento que destaca en un rango de colores diseñados para cualquier tipo de modelista. La etiqueta clara y fácilmente identificable, incluye el nombre del color y su referencia en la parte superior.

### BLUE LABEL ETIQUETA AZUL

The range contains a selection of 22 metallic tones with ultrafine pigmentation, marked by the label featuring a dark blue circle. La gama contiene una selección de 22 tonos metálicos con pigmentación ultrafina identificados por las etiquetas que contienen un círculo azul oscuro.

### YELLOW LABEL ETIQUETA AMARILLA

Intense colors are identified with the yellow circle on the label. These tones contain pigments of high purity and high concentration for the most vivid colors.

Los colores intensos están identificados con el círculo amarillo en la etiqueta. Estos tonos contienen pigmentos de gran pureza y alta concentración para los colores más vivos.

### GREY LABEL ETIQUETA GRIS

The bottles identified by labels with a grey circle comprise specially formulated mediums to modify the properties of paints.

Glaze Medium dilutes the paints and extends their drying time allowing to make glazes or mixtures. Metallic Medium mixed with other paints offers a pearly and metallic effect. Crackle Medium causes the paint to crack, whilst the Chipping Medium, applied between two layers of paint, enables to create chipping effects on the top surface color.

Los envases identificados con etiquetas con el círculo gris comprenden Mediums especialmente formulados para modificar las propiedades de las pinturas. Glaze Medium diluye los colores y extiende su tiempo de secado para efectuar veladuras o mezclas. Metallic Medium mezclado con los colores ofrece un efecto nacarado y metálico, con el Medium de Craquelar se consigue el cuarteador de la pintura y con el Chipping Medium, aplicado entre dos capas de pintura, se logra el desconchado del color superficial.

### BROWN LABEL ETIQUETA MARRÓN

The general label to identify the inks is the one with a brown circle. The inks of this range are not standard ones, the balance between fluidity and intensity allows to carry out the most challenging works. The selection of tones is ideal for working on most of the possible tones.

La etiqueta general para identificar las tintas es la que tiene un círculo marrón. Las tintas de esta gama no son unas tintas al uso, el equilibrio entre la fluidez y la intensidad permite llevar a buen puerto los trabajos más complicados. La selección de tonos es ideal para trabajar sobre la mayor parte de tonos posibles.

# 3RD GENERATION ACRYLICS

# EVOLUTION MATTERS!!!

## PERFECT GRIP

Once dry, the colors are permanent and waterproof. They are resistant to oils, enamels, washes, solvents or any potentially aggressive technique. They are easily applied without hiding the finest details of the figures or scale models. Our new formula offers adhesion and resistance up to twice as much as other paints in the market.

### THINNER DISOLVENTE

We recommend using the thinner to preserve the properties of the paint, applying thin layers without clogging in the airbrush. The paints are perfectly applied with a pressure of 18 PSI but it is possible to airbrush under other pressure levels too.

Recomendamos utilizar el thinner para conservar las propiedades de la pintura, aplicando finas capas sin atascos en el aerógrafo. Las pinturas se aplican perfectamente con una presión de 18 PSI pero es posible aerografiar bajo otros niveles de presión igualmente.

### PRIMERS IMPRIMADORES

The latest generation primers are applied onto the plastic with perfect adhesion properties. Simply apply a thin coat that helps to break the surface tension between the plastic and the acrylic base paint. With a second layer we can cover everything perfectly and get a perfect paint grip.

Los imprimadores de última generación permiten ser aplicados sobre el plástico con perfectas propiedades de adhesión. Basta con aplicar una capa ligera que ayude a romper la tensión superficial entre el plástico y la pintura base acrílica. Con una segunda capa podemos cubrir todo perfectamente y obtendremos un perfecto agarre de la pintura.

### VARNISHES BARNICES

The new range of varnishes within the line are designed to be applied over any type of paint with a smooth and even finish, providing maximum protection and a matt, satin or gloss finish.

La nueva gama de barnices de esta línea están pensados para ser aplicados sobre cualquier tipo de pintura con un acabado suave y liso, aportando máxima protección y un acabado mate, satinado o brillante.

### SETS SETS

The design of the sets could not be less important than the rest of the components within this 3rd generation line. The first thing you will find is an elegant box, with striking illustrations, and inside you will discover a 6-well plastic tray where you can make your mixes comfortably and quickly. Made of sturdy plastic, it will be very easy to clean with water and put it back in its place.

El diseño de los sets no podía ser menos que el resto de componentes dentro de esta línea de 3ª generación. Lo primero que vas a encontrar es una caja elegante, con llamativas ilustraciones y en su interior se encuentra una bandeja de plástico con 6 pocillos donde podrás hacer tus mezclas cómodamente y de forma rápida. Fabricada con un plástico resistente te será muy sencillo limpiarla con agua y volverla a guardar en su sitio.

### AK11601 NON METAL METAL STEEL

One of the first sets of this range is the NMM Steel. An attractive scene starred by a Roman soldier appears in its box art, and the application in different genres such as wargames, fantasy or historical figures can be seen in its back, since the colors can be used for as many purposes as ideas the modelers may have. The selection for each set has been made by the famous figure painter Eduardo Fernández who has tested the combinations on his own figures, which you can see in the AK publications and other magazines or books released by different publishers.

Uno de los primeros sets de esta gama es el de Metal No Metal Acero. En este box art aparece una atractiva escena protagonizada por un soldado romano y en su parte trasera se puede ver la aplicación en distintos géneros como wargames, figuras de fantasía o históricas, puesto que los colores pueden ser utilizados para tantos fines como ideas puedan llegar a tener los modelistas. La selección de cada set ha sido realizada por el famoso pintor de figuras Eduardo Fernández que ha testado las combinaciones en sus propias figuras, que podéis ver en las publicaciones de AK y otras revistas o libros publicados por distintas editoriales.
